PENDAHULUAN

Dr. dr. Adityo Susilo, SpPD, K-PTI
Ketua Panitia

Perkembangan teknologi medis telah memungkinkan perubahan signifikan dalam pendekatan pengobatan. Di tengah perkembangan teknologi yang semakin pesat dalam menghadapi tantangan medis di era modern. Penggunaan teknologi dan pendekatan berbasis data yang tepat semakin menjadi kunci dalam meningkatkan kualitas perawatan pasien dunia medis khususnya penyakit dalam, sehingga sebagai seorang dokter perlu beradaptasi dengan berbagai inovasi yang dapat membantu meningkatkan akurasi diagnosis dan efektivitas pengobatan.

Kegiatan Pertemuan Ilmiah Tahunan Ilmu Penyakit Dalam (PIT IPD) telah 30 tahun memberikan, membagikan ilmu dan keterampilan di bidang Kesehatan khususnya bidang penyakit dalam.

Pada tahun ini PIT IPD 2025 dengan tema “*Precision Medicine in Internal Medicine: Tailoring Healthcare with Advanced Technology*” menawarkan solusi yang lebih personal dan efektif untuk memberikan wawasan lebih dalam mengenai penerapan teknologi perangkat medis canggih dalam diagnosis dan pengobatan penyakit dalam dengan memanfaatkan data genomik, AI.

Kegiatan ini bertujuan untuk memberikan pelatihan langsung mengenai penerapan pengobatan tepat sasaran dan mengedukasi peserta mengenai bagaimana untuk pencegahan dan pengobatan penyakit dengan mempertimbangkan genetik, lingkungan dan pola hidup seseorang serta implimentasi dalam teknologi canggih yang dapat digunakan dalam praktek klinis sehari-hari untuk meningkatkan kualitas perawatan pasien.

Sehubungan dengan hal tersebut diatas, kami mengajak Saudara untuk dapat berpartisipasi menjadi bagian dalam acara dan mensukseskan kegiatan Pertemuan Ilmiah Ilmu Penyakit Dalam untuk pengembangan dokter di seluruh Indonesia, karena PIT IPD 2025 merupakan pelopor dan selalu unggul dalam transformasi ilmu serta praktik kedokteran dalam era digital.
